

Roadmap - Brazil NFT Official Collection 2026

The **Brazil NFT Official Collection** is a pioneering project created by Brazilians, carrying a strong cultural identity from our country. Developed for the Contentos blockchain community, the project aims to bring an NFT collection that authentically represents Brazilian culture.

Phase 1

- Creation and activation of social media channels
- Recruitment of Pioneers
- Development of NFT artwork
- Smart Contract deployment
- Official launch of the Roadmap and Whitepaper
- Minting and official registration of the NFTs will be done on the Ethereum network

Phase 2

- Submission to Contentos Whitelist
- Creation of a Channel Pool for member development and support
- Creator's initial contribution in VEST to strengthen the Pool
- All BP votes, rewards, and earnings received by the Pool will be injected directly into the Pool

Phase 3

- Listing a sustainable number of NFTs
- Conversion of funds into VEST for the Pool
- Distribution of the Pool to all Pioneers

Revenue Distribution

- **60%** of NFT-generated revenue → Pool (VEST)
- **40%** of NFT-generated revenue → Administrators

Special Rewards

- Rarity NFTs for Pioneer members
- 1 unique mint NFT for Administrators

Transparency & Verification

- After deployment, the contract will be published on the Explorer
- The contract will be available for public and transparent verification at any time
